reviewed. Treatment planning techniques and various treatment settings will be presented and considered.

Prerequisite Knowledge or Courses:

Course Objectives: Developing treatment plans that work for consumers requires a careful and comprehensive evaluation, based upon a thorough clinical and collateral assessment. Evaluation of offenders with severe psychiatric disorders should lead to the development of creative and effective treatment interventions. Treatment of mentally ill offenders occurs in a variety of settings from correctional institutions to community clinics. The effective treatment of offenders is complicated by their institutional history, incarceration, continued court supervision, vocational obstacles and social stigma that offenders must manage in addition to their psychiatric symptoms, social deficits and substance abuse history. Effective treatment must be creative, assertive, continuous, integrated and highly personalized.

Methods of Instruction: 6035 is a blended on-line/In-Class course utilizing lecture, on line education, individual research and examination as well as research writing and group collaboration.

Academic Dishonesty/Plagiarism

In an effort to foster a spirit of honesty and integrity during the learning process, Argosy University request that the submission of all course assignments represent the original work produced by that student. All sources must be documented through normal scholarly references/citations and all work must be submitted using the Publication Manual of the American Psychological Association, 5th Edition (2001). Washington DC: American Psychological Association (APA) format. Please refer to Appendix A in the Publication Manual of The American Psychological Association, 5th Edition for thesis and paper format. Students are encouraged to purchase this manual (required for some courses) and become familiar with its content as well as consult the Argosy University catalog for further information regarding academic dishonesty and plagiarism.

Additionally, Argosy University considers resubmission of a work produced for one course in a subsequent course or the submission of work done partially or entirely by another to be academic dishonesty. It is the student's responsibility to seek clarification from the instructor regarding how much help may be received in completing an assignment, exam or project and what sources may be used.

Scholarly writing: The faculty at Argosy University is dedicated to providing a learning environment that supports scholarly and ethical writing free from academic dishonesty and plagiarism. This includes the proper and appropriate referencing of all sources. You are responsible for maintaining an electronic copy of any work submitted, because you may be asked to submit your course assignments through "Turnitin," (www.turnitin.com). an online resource

established to help educators develop writing/research skills and detect potential cases of academic dishonesty. Turnitin compares submitted papers to billions of pages of content and provides a comparison report to your instructor. This comparison detects papers that share common information and duplicative language.

ADA Policy

It is AU/San Francisco Bay Area Campus policy not to discriminate against qualified students with a documented disability in its educational programs, activities or services. If you have a disability-related need for accommodations in this class, contact the Campus Director of Student Services who serves as the Disability Services Coordinator.

Once the determination of reasonable accommodations has been made, an approved Letter of Accommodation is given to the student. The student is then responsible for presenting and discussing a copy of the Letter of Accommodation with faculty, when requesting needed services. Accommodations are effective once the instructor has received the approved Letter of Accommodation. Accommodations are not retroactive. Students should promptly notify the Disability Services Coordinator of any problems encountered in receiving the agreed-upon accommodations.

Your instructor is responsible for delivering this curriculum in a format that will ensure the objectives are met and measured. This can be accomplished in a variety of ways depending upon the experience, orientation, technological acumen, emphasis and preferences of the instructor as well as the resources available. Your instructor is also required to ensure that the course Outline include details regarding assignments and method of instruction.
