New Student Email & Web Services

Argosy University is excited to announce that in January 2007 a new student email and web publishing system will be available to all students.   The new services will include the current functionality plus several new features, such as:

- 250 MB of email space
- 50 MB of web space
- Built-in anti-virus/anti-spam filtering
- Calendaring
- Web Publishing and File Sharing

There will be several other new features available, so watch for additional information regarding the new system to be published soon!

Backup Your Files

Have you backed up your data lately?   If you have important emails or files on your email/web space account, *please read this*. While we plan for the security of your data, it is always a good idea to be ready for the unexpected. We recommend that you always maintain a backup copy of any important files or emails <u>off the server</u>. While we will attempt to move your files to the new student email system in January, we recommend you take any necessary precautions in case your data is not available when you expect it. If you have questions on how to backup your files please contact Student Email Help via the link on your Personal Information Page in Banner Student Link.
